

LYOYD GEORGE ADDRESS WAS DISAPPOINTING

Speech to Liberals Manchester Reform Club Was Devoid of Interest

DEFENDS NEAR EAST POLICY

Says He Never Betrayed People and Therefore He Casts Self on People

MANCHESTER, Oct. 14.—Premier Lloyd George's speech to liberals of the Manchester Reform club, expected to be a historic utterance, was a disappointment because the premier gave no intimation regarding his plans or program. In that respect his oration was similar to that of Asquith Chamberlain at Birmingham yesterday. In an address of an hour and twenty minutes the premier devoted nearly an hour to a defense of his near eastern policy and to a minute recital of his critics. In a brief peroration recalling his services to the nation, he said: "I cast myself on the people because I have never betrayed them."

PEOPLE OF WELLS PLEASED WITH REPUBLICANS

Rousing Crowd Greets Chas. S. Chandler and Party Despite Rain and Mud

WELLS, Nev., Oct. 14.—Charles S. Chandler and party held a good meeting here last night, despite the rain and mud. Two big issues are before the Nevada people, whether the democratic officeholding brigade are worthy of reelection upon their records, and whether the republican national administration met successfully the situation inherited from the democrats. "For the first time in our history the country has been placed on a business basis by the republican budget law, passed by the republicans, and vetoed by Wilson, enacted by a party administration, as a means of saving \$1,000,000,000 the first year, the elimination of the great army of federal employees, reduction of the tax burden, the new tariff gives the farmers, stockmen and wool growers more for their products and enables the manufacturers to reopen their plants. It means plenty of work, good wages and the country returning to prosperity. All this was done in eighteen months and the election of republicans to congress means a continuation of this beneficial policy and better times ahead," Grant Miller said. "The democratic party is the same now as in 1920, when you turned them out then by 7,000,000 majority, and the same reasons exist why you should keep them out now." Harding, Russell and Smith spoke. The party meets the John H. Miller crowd at 8 o'clock tomorrow to hold a joint meeting.

GRAND MATRON GIVEN HONORS AT DUCKWATER

Mrs. Iva Rhodes, worthy grand matron of the Eastern Star, and a number of Eastern Star officers were entertained at luncheon by Mr. and Mrs. W. F. Mendes at their beautiful ranch home at Duckwater Saturday, Oct. 7. The luncheon table was very attractive with its centerpiece of lavender and white sweet peas. Covers were laid for the following: Grand Matron Mrs. Iva Rhodes of Reno, Past Grand Matron Mrs. Minnie McDonald of Ely, Grand Adah Mrs. Ella Doyle and Past Patron George Doyle of Ely, Past Patron Thomas Dixon of Eureka, Mr. and Mrs. G. A. Dugan of Ely, Mr. and Mrs. W. F. Mendes, Miss Irene Mendes and W. F. Mendes Jr. of Duckwater.

RAILROADS SIGN UP WITH MANY WORKERS

CHICAGO, Oct. 14.—Sixteen railroads have completed agreements with new organizations of their shopmen by which, in effect, the men waive the right to strike and the companies pledged themselves not to litigate, both parties agreeing to abide by the decisions of the railroad labor board. It has not yet been filed with the labor board.

CAMP ROYSTON STILL POPULAR LEASING CAMP

Another Shipment Prepared by Canadian Leasing Company From Golden Eagle

The Canadian Leasing company, operating the Golden Eagle claim at Royston, formerly known as the Bell's lease, is presenting a systematic campaign of development under the supervision of W. E. Edwards, and another shipment will probably be sent out during the course of the next few days. In the bottom of the shaft, that has a depth of 22 feet, two and one-half feet of high-grade ore is exposed and the same is being sacked as fast as it is broken and extracted. The shipment of high-grade that is now being prepared is expected to mill anywhere from \$1200 to \$1500 a ton, and the product is to be consigned to the Desert mill at Millers, according to present plans. A big shipment of second-class ore is also being prepared and it is expected that the usual values of close to \$200 a ton will be received in settlement. The property is making a better showing than at any time during the past several months, and if the improvement continues the prospects are bright for the previous showing of Belts and associates being rivaled.

GOOD HEADWAY TAKING PLACE GREAT DIVIDE

Usual Tonnage of Ore Produced for Week Ending on October 11

Tonopah Divide continues its aggressive campaign of operations and the showing throughout the mine workings is reported as being satisfactory. Especially does this hold true of ground above the 200 level where the greater part of the production is resulting. The usual tonnage of ore was produced during the past week, or for the seven-day period ending Wednesday, Oct. 11. Official report of operations follows: Intermediate east drift 369 was advanced 4 feet; 401 drift was advanced 24.5 feet; 234 north crosscut was advanced 12 feet; 425 south crosscut was advanced 16.3 feet; 1200 south crosscut was advanced 16 feet; 1400 south crosscut was advanced 13.7 feet; 205 raise was carried 4.5 feet; 207A raise was carried 5 feet.

BROWN BOY ELECTED MAYOR OF MONTEZUMA

A copy of War Paint, a periodic newspaper published at Montezuma school, near Los Gatos, Calif., announces that in the recent election of officers for the present school year the Brown brothers of Tonopah were elected to important positions in the student government. Hugh was elected mayor and Bub was elected commissioner of education. The boys have been enrolled in the school for the last three years. Hugh is a senior and will enter Stanford next September. Tonopah also has two other boys at this famous school, namely, Eiling Nordahl, son of Mr. and Mrs. O. E. Nordahl, and Abraham Lincoln Kendall, son of Mr. and Mrs. Zeb Kendall. The two latter boys enrolled in the school in September.

SUPPLIES SENT OUT TO EDEN CREEK MINE

A truckload of groceries which was followed by seven men and a woman, left Tonopah this morning for the property of the Eden Creek Mining company. Mark Bradshaw, the manager, has awarded a contract to continue the tunnel on into the mountain and work will be prosecuted throughout the winter months.

BELMONT MAKES HEAVY OUTPUT AT GREAT MILL

Shipments of Custom Ore Being Received From Number of Outside Properties

MINE WORK IS SATISFACTORY

Work Is Being Prosecuted at Present on Four Different Levels of Shaft

Large development continues to go forth at the property of the Tonopah Belmont Development company, and substantial production is in order at all times. In addition to the work going forward on four different levels of the shaft workings the big milling plant is operating steadily and heavy tonnages of ore are being received from outside properties. Some of these consignments are being received from the various leasers at Goldfield, a portion of the ore carrying high values in gold.

Local properties that are furnishing tonnage for the Belmont plant are the Rescue-Eula, North Star, Tonopah Montana and Midway, while the Knox and other operators at Klondyke are sending forth occasional shipments.

Report of operations for the seven-day period ending Saturday, Oct. 7, was given out as follows:

700 Level—Northeast crosscut 767 started off of north crosscut 701 made good progress and will be continued to connect with raise 850.

600 Level—West drift 9035 was advanced a short distance on the Favorite vein. The drift having encountered a fault, work has been stopped and stopping is in progress.

1100 Level—West drift 11920 made the usual progress and has been following the south vein. Work in southeast crosscut 11916 has been resumed and will be driven to prospect the bottom of the Belmont vein east of the Treasury fault. Raise 137 has been started off of the intermediate southwest crosscut off of stope 90 and will be driven to intersect the downward extension of a block of ore below the 1000 level.

1500 Level—Southwest crosscut 1505 made the usual progress and will be continued for some distance.

RATHENAU SLAYERS GET LONG SENTENCES

LEIPZIG, Oct. 14.—Sentences up to 15 years' penal servitude were imposed on the men who have been on trial in the political court on the charge of complicity in the murder of Dr. Walter Rathenau, late foreign minister. Ernest Tschow, who drove the murderous motor car, received the maximum penalty, while his brother, Hans, was sentenced to four years as an accessory.

U. S. OIL CONCERN ESCAPES MEX. TAXES

VERA CRUZ, Oct. 14.—An injunction against the payment of oil taxes, decreed recently by the state of Vera Cruz, has been granted the Transcontinental Oil company, an American concern. The suit was brought by the company to test the constitutionality of the Vera Cruz state oil tax law.

ARMY DIRIGIBLE ON LONG FLIGHT

EL PASO, Tex., Oct. 14.—The army dirigible C-2 sailed from the field at Fort Bliss at 8:20 this morning. The weather was favorable but a little cloudy and cool, the wind being entirely satisfactory, according to officers at the fort. The giant ship is on its way to San Antonio on a return cross-country flight.

NOTED BALLPLAYER HERE

Ken Williams, home-run swatter for the St. Louis Browns, accompanied by his wife, spent last night in Tonopah. Mr. Williams carried off the batting average for the American league and was only a few points behind Hornsby for the Nationals. He and his wife are en route by auto from St. Louis to Los Angeles, where they will visit some time.

LAST RITES ADMINISTERED

Funeral services over the remains of Dominie Burdono, who died last Wednesday morning, took place this morning from the undertaking parlors and quite a number of old-time friends were present to pay their last respects. Interment took place in the local cemetery.

MINERS REJECT OFFER MADE TO INCREASE WAGES

Result Stood 145 For and 277 Against Proposition Offered by Mine Operators

STRIKE SEEMS INEVITABLE

Conferences May Yet Be Held With View of Reaching Some Kind of Settlement

Yes 145
No 277

The above was the result of the vote that was cast this afternoon at Eagles hall to decide whether the miners of the camp would accept the offer of the mine operators for a wage increase of 25 cents a day.

In other words, it means that unless further consideration is given by holding of conferences that the miners of the Tonopah and Divide districts will go on strike.

The vote cast this afternoon applied only to the men working below the collar of the shaft, the top men not being allowed to vote. Thus, the top men and mill men had no say regarding the proposition, but will be forced out of employment through the refusal of the underground workers returning to their labors.

The underground miners made demand for an increase of 75 cents a day, which would be the old scale that was in effect previous to April 16, 1921. Several conferences were held between a committee from the miners and a committee of the mine operators, and finally the operators offered an increase in wages of 25 cents a day, the same to apply to miners working underground, as well as the top men.

The scale of wages offered is the highest paid in any mining camp in the west, although the investigation took in a broad scope covering the cost of living and conditions in the various mining districts, and it was found as a rule that the living cost in Tonopah was lower than in many camps, with wages in most instances much higher.

Another meeting will be held with the mine operators by the miners' committee at 7:30 o'clock at the Tonopah Divide office.

GERMAN PRISONERS RELEASED IN FRANCE

PARIS, Oct. 14.—Five German prisoners are all that remain in French jails of several hundred thousand taken by French troops during the war. President Millerand having granted full pardon to 21 of the 26 convicted of crimes against the common law.

EXTENSION IS BUSY PROPERTY PRESENT TIME

The holdings of the Tonopah Extension Mining company are a busy place these days. Operations are going steadily forward and the usual production is being made. The big milling plant is operating steadily on a splendid grade of ore and a substantial earning is now resulting for the treasury of the company. Official report of operations for the seven-day period ending Friday, Oct. 13, follows:

McKane Shaft.

1200 Level—1203 west drift was advanced 19 feet in Extension breccia. 1203 crosscut was advanced 24 feet in trachyte.

Victor Shaft.

1630 Level—Stopping on Murray vein.

1760 Level—Stopping on Murray vein.

1707 Intermediate drift advanced 5 feet on low-grade ore.

1804 Intermediate Level—Stopping on Murray vein.

1830 Level—1803 west drift was advanced 20 feet on 5 feet of good ore. East drift 1810 advanced 9 feet on 5 feet of ore. Raise 1814 advanced 15 feet on 5 feet of good ore. Stopping on Murray vein. Total development, 92 feet.

OPERATIONS ON TONOPAH M. CO. BRING RESULTS

Three Shafts Given Attention and Usual Tonnage of Ore Produced

CAVED SECTION IS PRODUCING

Output for Seven-Day Period Is 1400 Tons Sent to the Desert Mill

Tonopah Mining company has been prosecuting large development of late. Operations were centered through the Silver Top, Mizpah and Sand Grass shafts, and the usual tonnages of ore were extracted. During the week ending Monday, Oct. 9, a total of 1115 feet of underground work was performed at the three shafts, with a production of 1400 tons of ore, classified as follows: Silver Top, 28.5 feet, tonnage 600; Mizpah, 63 feet, tonnage 600; Sand Grass, 20 feet, tonnage 290. Official report of development follows:

Silver Top Shaft

Drift 641—This has been driven 20.5 feet west and 37 feet east from crosscut 627 on low-grade material. The east heading is near the downward extension of the vein in stope 561. Development, 28.5 feet. Stopping was continued from the various veins in this section of the property and produced 600 tons of mill ore.

Mizpah Shaft.

Raise 377—This has been continued 18 feet on the Mizpah fault vein.

Raise 283—This was started from 305 east drift to tap the west end of stope 381.

Drift 4907 Intermediate—This was continued easterly on a small vein of low-grade material.

Crosscut 473—This was started from drift 467 to open up another part of the caving section.

Drift 623 Intermediate—Drifting was discontinued and stopping begun on a small vein of mill ore.

Development, 63 feet; 600 tons of ore were shipped to the mill from this section of the property.

Sand Grass Shaft

Drift 1025 Intermediate—This was started from the lower end of stope 1025 to develop the downward extension of the ore found in stope 1023.

Development, 20 feet; 200 tons of ore were shipped from this section of the property.

WAGE INCREASE IS GRANTED RAIL MEN

CHICAGO, Oct. 14.—The railroad labor board has granted 2 cents an hour increase to 451,911 members of the United Brotherhood of Maintenance of Way Employees and railroad shop workers. The increase affects four of the nine classes of maintenance of way employees.

The increase will amount to an addition of \$22,125,000 to the wages bill of the nation's railroads. The average minimum wage under the new decision will range from 23 to 37 cents an hour. The decision came after 10 days of deadlock among the board members, in which Ben W. Hooper, chairman, and a member of the public group succeeded in obtaining a majority in favor of the increase.

The maintenance of way employees' increase applies to those on the Southern Pacific.

The sixteen roads which have signed agreements with the new organizations of employees include the Union Pacific and Southern Pacific.

FIRE AT CALLOWAY FARM DOES GREAT DAMAGE

Fire destroyed the large barn of Frank Calloway on Currant creek yesterday morning at 4 o'clock, causing a loss of about \$2000. The blaze had its origin when a farm hand entered the barn with a lantern to secure a quantity of gasoline, and an explosion occurred when the light of the lantern came in contact with the vapor that impregnated the building. Two steel drums were split in two by the explosion, with the loss of about 500 gallons of gasoline. In addition a Ford car belonging to the son of Mr. Calloway was consumed.

DILLENS ON WAY BACK TO FACE MURDER CHARGE

Sheriff W. T. Thomas and Deputy Robert Nelson, who went to Bakersfield to take into custody Mr. and Mrs. G. Dillen, wanted for the murder of Wallace Williams, left today for home, being in charge of the wanted parties, according to a wire received this afternoon by Undersheriff Don Levers. They should arrive in Tonopah either Sunday night or some time Monday morning.

FIUME AGAIN SCENE OF MUCH FIGHTING

LONDON, Oct. 14.—Fighting broke out between the D'Annunzio legionaires and Zanella forces in Fiume, says a Rome message to the Central News. The Ancona message states that Italian destroyers have been dispatched to prevent the departure of Fascist forces from Zara for Fiume.

HUDSON LEASERS BREAKING HIGH GRADE MINERAL

Showing on 300-Foot Level of Main Shaft Proving Most Encouraging

A remarkable ore showing is reported as being in evidence on the 320 level of the Hudson shaft at Royston, the camp that had a mushroom growth about a year ago. Development is being prosecuted under lease by Taberica & Tolo, and they are said to have encountered a body of high-grade ore that has a width of two feet and better that carries values of close to 1200 ounces silver a ton. These leasers have been prosecuting development almost continuously for a year, during which time they have sent out occasional shipments of high-grade, but the showing at present is regarded as being better than at any time during the past history of operations.

It is expected that the company will start development on its own account within the near future, and it is quite likely that attention will be given to the 400 level, as well as sinking the shaft another 100 feet. The Walker brothers of Salt Lake, who are interested in the Hudson Mining company and who recently visited Royston, were highly pleased with recent developments and funds will no doubt be forthcoming to carry all plans to a successful issue.

AIR AND NAVY BRANCHES NEED MORE AVIATORS

Aero Congress Informed Such Is Necessary in Order to Protect Country

DETROIT, Oct. 14.—The United States should have 2400 airplanes in its army and navy air branches for adequate defense, in the opinion of Brigadier General Mitchell, assistant chief of the army air service. This force, declared General Mitchell before the national aero congress here last night, should be divided into an Atlantic and a Pacific division, with strong groups posted also in the interior. No nation that could not control the air, he said, could hope to withstand an attack by a strong and well equipped invader.

THREE PERISH ON TUG

PORTLAND, Ore., Oct. 14.—Three men lost their lives when the dredge Portland of the port of Portland was sunk here by the steamer Santa Clara, a vessel of 10,000 tons. Forty men were on the dredge, which sank within two minutes after the collision.

CONCRETE WORK ON BUILDING ABOUT OVER

Pouring of concrete for the new Knights of Pythias auditorium at the corner of Central street and Brougher avenue will probably be completed some time tomorrow. If work is carried on tonight it is hoped to finish the task by Sunday noon, but if it is decided to wait until morning the work will not be completed before 1 o'clock in the afternoon. Steel for the building is expected to arrive in a few days, or previous to the concrete becoming thoroughly set.

ELKS TO PROVIDE REAL ENTERTAINMENT

Tonopah lodge of Elks, No. 1462, will be host Monday night at their home when they will introduce the first number of the entertainment course to be staged during the fall and winter. The Metropolitan Male Trio come highly recommended as among the leading entertainments in concert work. The program starts promptly at 8:30 o'clock and the public is cordially invited, being assured of clean and wholesome entertainment. The admission is 50 cents.

GREEKS ACCEPT ALLIES' TERMS FOR ARMISTICE

Mudania Agreement Transmitted to All Signatory Powers by High Commissioner

GREEKS EVACUATING THRACE

Formal Orders Issued By Army Authorities Called for Leaving Country

CONSTANTINOPLE, Oct. 14.—Formal acceptance by the Greeks of the Mudania armistice agreement was transmitted to all signatory powers by George Simionides, Greek high commissioner in Constantinople.

ADRIANOPLE, Thrace, Oct. 14.—Evacuation of Greek troops from eastern Thrace under the terms of the Mudania armistice agreement was due to begin today in accordance with a formal order issued by the Greek military headquarters here.

TRANSPORT WITH CREW ORDERED TO LOS ANGELES

Tugs Ordered Out to Meet Ship and Are Carrying Necessaries for People

WASHINGTON, Oct. 14.—The army transport Thomas has been ordered by Secretary Weeks to proceed to Los Angeles instead of San Francisco and land the passengers from the burned liner City of Honolulu. The transport later will go to San Francisco.

The decision of the war department to bring the transport Thomas, carrying the crew and passengers of the City of Honolulu, to Los Angeles was followed by an announcement that tugs will be sent out to meet the transport, carrying close relatives of passengers from the City of Honolulu, newspaper men and officials of the Los Angeles Steamship company, which operated the vessel. The company at once arranged to take out articles for the personal use of the survivors, such as changes of linen, articles of apparel and other necessities, as it was not known whether they were able to save their baggage when they took to the small boats.

SAN FRANCISCO, Oct. 14.—The shipping board steamer West Farolan, which rescued 261 persons of the City of Honolulu, put two men aboard he chartered dory to make a preliminary survey of the fire damage, according to a wireless message received from Farolan by the Federal Telegraph company.

JEWELER ROBBED BY LONE L. A. BANDIT

LOS ANGELES, Oct. 14.—Nate Meyer, jeweler, having a store at Sixth and Grand, reported to the police today a bandit bound him in his back room of his store and had taken jewelry valued at \$4000 and about \$80 in cash from his safe.
